DETAILED ACTION

1. Claims 18 and 19 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Drews et al (5,334,648).

The claims are rejected for the reasons given in the previous Office Action, Paper No. 6.

2. Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over Drews (5,334,648).

The claim is rejected as set forth in the previous Office Action, Paper No.6.

3. Claims 14-17 are allowed.

4. Applicant's arguments have been considered but are deemed unpersuasive of patentability of the rejected claims. It is urged that the phosphate surfactant contributes to the strength of the glass fiber sheet, a property not recognized by the prior art. However, the present claims are directed to a polymer composition and irrespective of any additional beneficial results or properties the presence of the phosphate surfactant imparts, the composition does not define over the composition of Drews et al, who discloses the use of a phosphate surfactant.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
